BUYER TESTIMONIAL

“We had a great experience, and the title/purchase went amazingly smooth for the large number of people you had (sic) at the annual charity boat auction... Once we purchased the boat, everyone was very helpful and the marina manager was very good at getting us the small things we needed to get the boat ready to roll.” – Eva Birk, Baltimore, Md.

DONOR TESTIMONIALS

“We learned of your organization by doing a Google search which led me to your website. I made an email contact and got a very prompt response which then led to phone conversations to finalize plans. I was amazed at how quickly and efficiently the whole process took place.” – Barbara & Don Zukowski, Davidsonville, Md.

“When we decided it was time to part ways with our Grampian 26, we chose to offer it to the museum, recognizing it was a good cause, and frankly not being interested in the potential aggravation of selling a sailboat from a two hour distance from our marina. I believe CBMM does an exceptional job of making the public aware of the museum and its programs. We have enjoyed your festivals, expansion, and restoration of Rosie Parks, and exhibits over the past many years.” – Al Tocci, Georgetown, Md.

“I was already familiar with the museum, having visited a few times, but discovered the boat program on-line. From the start, Todd was extremely helpful and kind. The decision to donate my brother's boat, Pintail, was both heartbreaking and necessary. As a waterman, his life was the Pintail. When my brother passed, the family knew we couldn't maintain the vessel, and wanted to find a good home for it. While we would have loved for the museum to keep Pintail, we were comforted to know someone who recognized her charm would purchase her, and the proceeds would directly support the museum. My brother loved the Bay and CBMM. I think he would be pleased. Thank you for making this an easy process.” – Kim Kohl, Betterton, Md.

“We have lived in the area for 27 years and have heard many good things about the CBMM. My father-in-law had a life-long love for the Bay and was a very generous man. Born and raised in Baltimore, he spent many a summer on the bay with his father, Capt. Theodore Nolker, who was a tug boat captain. Upon retirement, he and his wife moved to Oxford and Dick ordered his Herreshoff Cat Ketch. For the next 20-plus years, Dick loved being out on his boat Harmony, sailing towards the mouth of the Choptank treating children, grandchildren, and friends to an easy sail. As a family, we could not have thought of a better way to honor him, than donate the boat to support your work, and in turn have someone else create fond memories sailing her in these waters.” – Heike Nolker & the entire Nolker family, Annapolis, Md.
